

The 5D Client Map

Map the one buyer you want, on one page. Then every post, email and sales call speaks to what they want, and you lead the conversation from the first minute.

RULE OF THUMB Clients buy what they **Desire**. You win and keep them by fixing the **Deficit**. They refer you because of the **Delight**. So: market to the Desire, surface the Deficit in the conversation, design the Delight on purpose.

1 DEFINE

Who they are. Who signs? Industry and model? Revenue and team size? What trigger makes them a buyer **right now**? What can you spot from the outside?

NOT FOR

Who you say no to in advance.

2 DESIRE

What they say they want. In their words, the way they say it on a first call. Copy phrases from your last three call notes.

USE IT FOR

Your headline, your hook, your subject line, the first line of a DM.

3 DEFICIT

What is really missing. For each Desire ask "why hasn't this happened already?" Then ask again. The answer they can't see on their own is a Deficit.

YOUR YELLOW MARKER

The ONE deficit that, fixed, makes most others take care of themselves.

4 DELIVER

What you bring. List what you do. Draw a line from each item to the Deficit it closes.

CHECK

A Deficit with no line = a hole in your offer. A Deliver item with no line = a feature nobody asked for.

5 DELIGHT

What they remember. The moments a client tells a friend about. Specific enough to put on a calendar.

MAKE IT HAPPEN

Give each moment a date and an owner for your next new client.

THE OUTCOME UNDER THE MAP What life looks like for your client when all five columns work: _____
